AMA continues with the Media Literacy campaign, Krasniqi addresses 200 high school students in Durrës: Be careful from the risks of the virtual world!

The Audiovisual Media Authority Chair, Ms. Armela Krasniqi, as part of the ongoing Media Literacy campaign, visited the city of Durrës, where she met with 200 high school students from three different high schools and informed them about various negative phenomena and the hidden dangers of the virtual world, while also explaining ways to protect themselves against these risks. AMA's Chair called on the students to report at any time instances of hate speech, bullying, sexism and other phenomena associated with hate speech.

Interinstitutional roundtable on misinformation in the field of medicine, the Chair of AMA: Misleading messages can endanger citizens' lives

Protecting public health and fighting health-related disinformation brought together in an inter-institutional roundtable senior leaders. AMA's Chair, Ms. Armela Krasniqi, stated that the institution she leads open and ready to contribute, including through legal support where requested by professionals, to help improve the situation. She emphasized that the misinformation on health topics by so-called doctors, often unlicensed or self-proclaimed holistic and alternative practitioners can endanger lives.

UNESCO presents the findings of its study on Albania regarding Social Media Platforms and Online Media

AMA's Chair, Armela Krasniqi, participated in the roundtable discussion titled "Digital Platforms and the Online Media Governance in Albania", organized in Tirana by UNESCO. During this meeting, the findings of the study on Social Media Platforms and Online Media in Albania were presented. UNESCO's initiative on the Digital Platforms Governance was formalized last year in Croatia with the establishment of the Global Network of Networks, in which Krasniqi participated in her capacity as the MNRA network Chair.
