AMA appeals to citizens: Do not make any payments, “AlbKanale” is no longer operational, careful with IPTV services and unauthorized platforms

The Authority called on citizens to use only legal television platforms and services. Piracy may occur through illegal IPTV services, modified devices, unauthorized applications and websites. Choosing licensed providers protects broadcasting rights, the public and the sustainable functioning of the media market. Meanwhile, AMA announced the blocking of the pirate application “AlbKanale” on August 11, 2026, following monitoring and technical analysis carried out by its inspection teams. The application was illegally broadcasting Digitalb and Tring packages, as well as television channels and sports content. Following the disruption of the service, the operators requested financial contributions and cryptocurrency payments. AMA urged citizens not to make any payments, as the blocking was the result of enforcement action against an illegal service. Read More

Protest monitoring: Live broadcast time measured across 12 news television channels

AMA monitored the live broadcast coverage of the protest over a 30-day period in June and July across 12 national news television channels. The monitoring included only the time during which the protest itself was being broadcast live, excluding programmes, commentary and studio interviews. The monitoring was conducted using the same methodology applied by the Authority during electoral processes, with the aim of providing an accurate account of the actual live broadcast time. AMA–TikTok cooperation: 107 harmful pieces of content and 1,943 pirated materials removed

The data published throughout August on the cooperation between citizens, AMA and TikTok was updated several times. According to the latest figures, as of August 24, a total of 292 complaints had been handled, 132 of which were found to be law violations. The platform removed 107 videos and audios, primarily for incitement to violence and hatred, exposing children to harmful content, acts of violence and religious hatred. In addition, 1,943 materials infringing copyright were reported and removed, including 1,000 photos and 943 videos.

Council of Complaints handled 194 complaints during the first half of 2026

The public complaints analysis showed that disinformation was the most frequent issue, accounting for 16.5% of cases. This was followed by violations involving image rights and privacy at 12.9%, verbal and physical violence at 11.9%, and issues related to the public interest at 8.8%. The periodic analysis of this data helps identify recurring problems, strengthen ethical standards and increase broadcasters’ accountability to the public.

First half of 2026: 9 administrative measures imposed

During the first half of 2026, AMA conducted 134 inspections of entities operating in the audiovisual market. The inspections covered cable networks, IPTV and OTT services, following complaints and on-site verifications. As a result, 9 administrative fines were imposed, 5 for violations of broadcasting rights, 2 for obstructing inspections and 2 for failing to submit the requested recordings.
